

Questions for your doctor.

This list was adapted from, *Living Well With Macular Degeneration*, by Dr. Bruce P. Rosenthal and Kate Kelly.

1. Do I have “wet” or “dry” AMD, and what is the difference?
2. What is the extent of my vision loss?
3. What other changes can I expect?
4. How quickly is my AMD progressing?
5. Are both eyes affected?
6. Will changing my prescription help at all?
7. Are there any medical or surgical treatments that might help?
8. What changes or symptoms should I be watching for?
9. Should I see a specialist in low vision?
10. Can you refer me to a visual rehabilitation clinic?
11. What can I do to protect and prolong my vision?
12. Is there a vitamin/mineral program that might be helpful?
